1964	04/11/64											
1963	04/04/63											

*The dates listed above are *observed* ice over or ice out dates. It may be that the lake had been frozen or thawed earlier than noted.

The definition for ice over or ice out is when 90% of the lake is covered by ice or ice-free, respectively.

"Ice Over" date does not infer that the ice is safe for walking on.
