

**Citizens, we need your help!**  
**Consider joining our Citizens Advisory Committee.**

As a member of the Citizens Advisory Committee become part of a critical partnership with the Watershed District and play an important role in improving lakes and protecting clean water:

Advise on the State of Water: Citizens are our eyes and ears “on the ground” and can provide valuable input on current issues of concern.

Help the Planning Process: Your valuable insights are a necessary part of our efforts to create actions and programs that create clean water.

Increase Community Awareness: Represent the Watershed District at community events and keep your friends and neighbors posted on the latest progress toward cleaner lakes.

Collaborate on New Programs: Provide guidance on projects happening in your area with your neighborhood or local organization.
