Water clean-up venue changed

Prior Lake's annual Clean Water Clean-Up event has been moved to Crystal Lake Park, 4217 Village Lake Drive SE, Prior Lake, 9:30 a.m. to 12:30 p.m. April 23.

Due to heavy spring winds, the original venue, Sand Point Beach Park, doesn't need as much raking and organic cleanup as Crystal Lake Park. Volunteers will also enhance the existing wetland buffer at the park by planting wetland and shade seed mix in low areas, and removing buckthorn, an invasive plant species.

There is limited street parking, so Tractor Supply Co. has given volunteers permission to park on the west side of the lot, near the donation boxes.

Volunteers can sign up through the Prior Lake-Spring Lake Watershed District's website: <http://www.plslwd.org>. They can also call the district at 952-447-4166.
