

Have You Heard the Buzz about Native Prairie?

You don't need to live on a large property to create natural areas, help pollinators and enhance wildlife habitat. Something as small as a half-acre of your lawn or as large as a 10 acre or more crop field can be converted to beautiful and environmentally beneficial native grasses and flowers! Learn about site preparation, how to get your planting started, receive maintenance tips and find out more about possible funding!

WORKSHOP REGISTRATION

Cost: **FREE**, registration requested
Call the SWCD office at **952.492.5425**
or register online at **www.scottswcd.org**
