

Watershed District in need of volunteers to report ice-out dates, rainfall

The Prior Lake-Spring Lake Watershed District is looking for residents to keep an eye on lakes and the weather.

The district needs volunteers to help report lake ice-out dates and record precipitation. No experience is necessary.

Ice-out reporters are needed for all lakes, including Spring and Prior lakes as well as smaller district lakes including Fish, Crystal and Buck lakes. Precipitation volunteers are needed in certain areas of the watershed, but not all.

Those interested should email Jaime Rockney at jrockney@plslwd.org.
