# Capital Projects

## Public Infrastructure Partnership Projects

**Project Lead: Maggie**

- Received final cost estimates and phosphorus load reduction estimates from EOR for the Sunset Hills Park Retrofit Project. Based on this information, the City and PLSLWD decided not to move forward with a 319 grant for the project in hopes that a more cost-effective option can be found to address phosphorus loading and flooding in this subwatershed.
- Successfully acquired a MnDNR CPL grant for shoreline restoration project along Fish Lake at Spring Lake Town Hall.

## Storage & Infiltration Projects

**Project Lead: Diane**

- DNR conditional and WCA permits approved

## Carp Management

**Rough Fish Management**

**Project Lead: Maggie & Kathryn**

- Continued to track radio-tagged carp throughout the lakes.
- Worked with WSB on lining up potential carp seine on Upper Prior Lake.
- Provided more information to BWSR for Watershed Based Funding grant work plan.
- Corresponded with MPCA and received final approval for the 319 work plan.
- Completed final version of Carp Management Feasibility Study.
- Continued to research potential underwater speakers to begin “herding” carp to preferable seine locations and identified vendor.

## Next Steps

- Select projects for 2019 completion under this budget category at March Board workshop.
- Meet with EOR and the City of Prior Lake to come up with a more cost-effective solution for Sunset Hills Park Project.
- Start moving forward with Fish Lake shoreline restoration project in coordination with Spring Lake. Line up a potential contractor(s) to complete the work this spring.
- 60% design
- DNR permit approval
- Meeting with landowners later in March
- WSB and PLSLWD staff will continue to track the radio-tagged tagged carp.
- Complete a carp seine in Upper Prior Lake, including associated email updates, press releases, social media, and other communications.
- Final design and installation of the Northwood carp barrier once BWSR grant work plan is approved.
- Order underwater speakers for “herding” carp and two additional PIT tag receivers, PIT tags and radio-tags for tracking carp this spring.

MEMORANDUM

TO: PLSLWD BOARD OF MANAGERS
FROM: DIANE LYNCH
SUBJECT: 2019 LEGISLATION
DATE: MARCH 12, 2019

COMMERCIAL SALT APPLICATION (HF 1502, FISCHER)

Background

Requires the MPCA to develop a voluntary training program for commercial applicators of deicers (salt) to promote best management practices and provide certification to those who complete training and pass an exam. Certified applicators and owners/lessees of property that hire certified applications receive certain liability protection from damages arising from snow/ice hazards on the property.

Supported by: MAWD, StopOverSalting (coalition)

Staff Recommendation

Add PLSLWD’s name to those who support the legislation.

DEVELOPER BILL (HF 1887, HEINTZEMAN) AND (SF 1766, DRAHEIM)

Background

This is a bill brought to legislators by developer Mark Lambert, along with a coalition of other interested parties. They would like to see watershed district statutes modified to better recognize pre-existing water rights when developing land. They propose doing this by limiting the ability for watershed district managers to adopt and enforce several types of rules. MAWD met with several legislators in anticipation of this bill being introduced this session.

The District received a public data request from Lambert’s office and complied. Per Chuck Holtman, Lambert collected data from a wide number of metro watershed districts on behalf of Summit Management, a development entity, where he is the principal. Mr. Lambert is bearing a
grudge because of his perception of unreasonableness in permit matters with Brown’s Creek and Comfort Lake WDs.

Staff review of the legislation:

- Requires a county board to appointment at least one manager that has experience that has experience or a background in real estate investment, development or construction

- Requires managers to annually report engineering and legal fees billed to the landowner and determine if the fees are reasonable

- Requires manages to prepare and review a statement of need and reasonableness before adopting or amending rules

- Before the rules hearing date, requires managers to mail a copy of the rule changes to all persons who received permits from the district in the past 5 years; all parties who have consulted with the district on upcoming projects in the last 12 months and all landowner directly impacted by an increase in wetland buffer setback requirements

- Rules cannot be effective before 120 days after adoption

- Rules that affect land or water within the boundaries of a city are not affect unless the city council is notified 45 days before adoption and does not object within 30 days before adoption. If there is a dispute, the city and district must meet and resolve the objection otherwise, the city may opt out of enforcing the rule

- Rules may not be adopted or enforced regarding easements that obligates the landowner or landowner’s successor to perfume tasks in addition to those in rules

- Rules may not create wetland buffers larger than 25 feet and prohibit reasonable activities in the buffer, such as grading, tree removal, grading for adjacent storm ponds or facilities, etc.

- Rules may not require the landowner to demonstrate their facilities or structures will not have an adverse impact on local groundwater or natural resources

- Other rule restrictions include variances, adopting BMPs, paying district’s legal or engineering fees, etc.

- Rules may not deprive or devest a private or corporate landowner of water rights or existing water conditions, such as stormwater runoff, infiltration, drainage, ponding or flood relief, without payment of adequate compensation

- Additional legal impacts are provided

Opposed by: MAWD
Staff Recommendation

Senator Draheim is a member of the Scott County delegation. We understand he carried this bill last year.

Staff recommends that we meet with Senator Draheim with LMRWD and explain to him how this would affect us.
Manager Per Diems
Revised
3/12/19

The following is the approved recommendation regarding per diems for Board Members:

1. A board manager will be allowed the maximum per diem by MS Chapter 103D.315, Subdivision 8, which states that “compensation of managers for meetings and for performance of other necessary duties may not exceed $75 a day. Managers are entitled to reimbursement for traveling and other necessary expenses incurred in the performance of official duties.”

2. The District is required to include the managers in its payroll and provide payment for expenses and per diems. The District will provide a W2 form.

3. If a manager attends a meeting as a liaison on the list approved by the Board or represents PLSLWD at the Minnesota State Legislature, the per diem will be $40 for one meeting and up to a maximum of $75/day for additional meetings.

4. If a manager attends a board workshop and/or board meeting, the per diem will be $75.

5. If a manager attends a special board meeting where voting is required, the per diem will be $75.

6. If a manager is appointed as a delegate to MAWD, the per diem will be $75.

7. If a manager chairs the Cooperators’ meeting, the per diem will be $75.

8. If a manager attends a meeting or training that is not a board or liaison meeting, payment of $40 for that meeting will need to be approved at a board meeting. The preference is to secure approval before the meeting or training takes place.

9. Meetings other than those indicated are considered voluntary.

10. If the District Administrator needs clarification or a decision on reimbursement, the District’s Treasurer is authorized to make the final decision.

I. Call meeting to order 6:33pm – President Steve Pany

II. Agenda-additions-Approval of Agenda & October meeting minutes.
   a. Approved minutes.
   b. Approved agenda.

III. Watershed District Projects update / Discussion topics:
   a) Woody S. submitted an application to join the CAC
      a. CAC motioned to approve unanimously for the Watershed to consider.
      b. Water content in snow, spring outlook, lake water levels. Low flow gate.
         i. Watershed district is looking at Sutton Lake for future water storage.
         ii. Will need to have a flow gate installed and drawn down in the fall.
         iii. A couple of culverts and a berm will be installed.
         iv. The intent is to have these completed by this year.
   b) Any possibility to restrict flow upstream. Put in the dam at Spring Lake outlet?
      i. The concern is that the Watershed cannot flood the Spring Lake homeowners’ property. Can’t put this in before the peak on Prior Lake.
      ii. The new policy of the board is to not put the dam in as the hydrology does not work as a resolution.
      iii. Is this report on the website? Diane will check, if not it should be. Diane will also send out to the CAC members.
      iv. Diane to verify the results from the Flood Study is on the website.
   c) It is known that the snowfall is dry and doesn’t have much water content
   d) Believed to be about 2.5 inches of actual water content.
   e) Next Tuesday the District will open the low flow gate which will drop the lake about .5 foot. This is called drawdown. At 902.0 foot, it has to then be closed.
   f) Jaime Rockney monitors the outlet channel and water has flowed all winter long.
g. Jim Weninger offered that Northwood park area had built an underground water storage system.

c) Upper Prior Lake: Carp management project update. Percent removed and percent remain-
   a. 80% remain on Upper Prior Lake from the 2018 sein.
   b. Goal is next week to have a winter seine.
   c. Don Geyer, commercial fisherman, has agreed to participate and conduct the sein.
   d. MAWD has agreed to language in the current statute to remove the territories held for carp seining. Meaning, the watersheds can elect to choose the seine who wants to do the seining and not be held to just one seine who may not want to sein.
   e. Need to get the carp out and supply the lakes with Blue Gills, per Steve Pany.
   f. Tournaments have been unsupported as they were expensive.

d) Carp seining cost share Lake Association.
   a. Can the Watershed send a letter seeking cost share?
   b. Cost share money could be used to incentivize the seine.
   c. Woody, as a member of the Prior Lake Association, shared that this is under discussion at this time.

e) Sutton Lake water volume reduction project update. Water slowdown/storage
   a. Covered above.

e) Farm-Led Council event review. How many are doing cover crops?
   a. 5 farmers are doing cover crops.
   b. Good core of energetic participants.
   c. Farmers interested are the ones who have the largest volume of acreage.
   d. Cover crops have other benefits than water erosion.

g) DOT Hwy 13 Ferric Chloride Lake Improvement Plant concern.
   a. Road construction is coming. Maybe in 2020.
   b. Concern as there is a pipe under Hwy 13.
   c. Woody has been engaged and has been assured the pipe will be protected.
   d. Plant was installed around 1983.
   e. What about signage around this area—can’t due to it being a state highway.
   f. Suggest doing an article to re-introduce readers to the Ferric Chloride plant.

   a. Comment from someone who has attend many events still did not know our organization- what about giving a decal and a business card about the watershed?
   b. April 28th is this Springs clean-up date, with a May 5 fall back date.
   c. This Spring’s selected park is Sandpoint.

i) U of M Sunfish study: Effect on carp project 12/17 wetland. A carp control method?
   a. Put blue gills in the wetland and they ate the carp eggs. Study around the right ratio. Final report has not been provided.
   b. Is there a contact at the DNR to understand the stocking program? Spring Lake Association could ask for stocking of their lake.

j) Watershed District Managers. Job description to learn more about duties.
   a. Diane provided copies of the manager roles and responsibilities.

k) Watershed project tour 2019.
   a. TBD for 2019
   b. Consideration for parade of homes and shorelines on both on Spring and Prior Lakes.
   c. Ice out Party on March 23rd at Charlie’s – watershed will have a booth to seek out the tour spots.
I) Seminars / events.
   a. Handout provided
   b. Budget of $300 annually- let CAC know if interested

I. Next meeting date: March 28th, 2019

   1. EOR will be back to present.

III. Comments, suggestions, questions.
   1. Lake clean up after the ice houses leave. Lake associations, sheriff handle currently.
   2. Next month
      i. Kathryn will review this year’s Education and Outreach program
      ii. District’s 50th anniversary is coming up and we should plan events and ideas.
   3. Use of acronyms at District meetings should be reduced and replaced with actual titles.
   4. Alum treatments – what about doing a dredging Spring Lake – engineering study results can be found on the website.
   5. CAC Advisory items-
      i. Top 4
         1. Water levels, water storage and flood prevention. Low flow gate management.
         2. Outlet channel management and maintenance.
         3. Carp removal, carp management projects.
         4. Water quality; monitoring phosphorous, water flow, and aquatic plant control.
         5. Community outreach and education. Connection/coordination with groups/Government.
      6. Alum treatments
      7. Permitting and easement enforcement.
      9. Projects: e.g 12/17 wetland restoration, Raymond Park, Fish Point Park, N. Shoreline Spring Lake, and Ferric Chloride plant.
      10. Regional storm water planning.
