

## BOARD OF MANAGERS

The Prior Lake-Spring Lake Watershed District is an independent local government unit that provides technical reviews of land development proposals, coordinates its water management responsibilities with local units of government, and furnishes information to local units of government and the public about protecting the District's water resources. The Board oversees District staff and activities and meets the second Tuesday of every month at 6:00 PM at the Prior Lake City Hall. Members must reside within the Watershed District. There are five members of the Board. Members are appointed by the Scott County Commissioners for three-year terms. There are no term limits.
